EXPERIENCE

Student Worker

Texas A&M – Financial Aid / Student Business Services

June 2026 – Present

- Assist students and families with financial aid, tuition, billing, and loan questions in a high-volume service office, helping resolve issues accurately under tight deadlines.
- Review account details, payment timing, and loan status in campus systems, and explain multi-step processes clearly while safeguarding confidential student information.
- Provide administrative support, data entry, and issue triage under established procedures, escalating complex cases to the appropriate staff when needed.

Freelance Web Developer

Self-Employed | Remote

2024 – Present

- Design and build responsive websites for small businesses and individuals, prioritizing clean layout, readability, and a strong first impression.
- Troubleshoot and maintain WordPress sites, improving page structure, usability, and ongoing content presentation based on client needs.
- Turn broad client ideas into clear website direction, manage revisions directly, and deliver practical solutions that balance polish with simplicity.

Soccer Referee

Youth Soccer | Seasonal, 4+ Years

2021 – Present

- Officiate youth matches (preschool–8th grade), enforcing rules and keeping games safe, organized, and respectful.
- Make fast, defensible calls under pressure and communicate decisions clearly to coaches, players, and parents.
- De-escalate conflict calmly and mentor newer referees on procedures, positioning, and consistency.

EDUCATION

B.S. Manufacturing & Mechanical Engineering Technology (MMET)

Texas A&M University | College Station, TX

Expected May 2028

Relevant Coursework:

- Manufacturing & Assembly Processes I & II
- Metallic & Nonmetallic Materials
- Mechanics for Technologists (Statics)
- Engineering Graphics & Computation
- Experimental Physics & Engineering Lab II
- Principles of Statistics I | Newtonian Mechanics
- Technical & Professional Writing

SKILLS

Technical: HTML, CSS, JavaScript, WordPress, SolidWorks (CAD), engineering drawings, technical documentation, data entry.

Software: Microsoft Word, Microsoft Excel, Google Docs, Google Sheets, document formatting, academic systems navigation.

Engineering: Manufacturing & assembly processes, metallic & nonmetallic materials, statics/mechanics, engineering computation, applied statistics, lab instrumentation.

Professional: Customer service, verbal & written communication, conflict resolution, de-escalation, issue triage, teamwork, dependability.

PROJECTS

Skheduel – Scheduling Web App (Front-End)

Personal Project | Web Design / Front-End Development

2024 – Present

- Design and develop a front-end scheduling concept that helps students view weekly commitments more clearly and manage their time with less friction.
- Build the interface with HTML, CSS, and JavaScript, focusing on readability, intuitive navigation, and a cleaner experience than typical cluttered schedule tools.

ACTIVITIES & INVOLVEMENT

MMET Study Groups

Peer problem-solving in manufacturing & materials coursework

PHILSA – Philippine Student Association
